

# The Sun

Entered at the Post Office at Gainesville, Fla., as second-class mail matter.

H. H. MCCREARY, Editor and Publisher.

W. W. ASHLEY, Associate Editor.

JESSE L. BURTZ, City Editor.

LOUIS J. BRUMBY, Gen'l Traveling Agent.

F. M. PREWITT, Supt. Composing Rooms.

OFFICE: PORTER BLOCK.

205 W. Main Street, S. Telephone 43-9

THE DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free, for \$5 a year; \$2.50 six months; \$1.25 three months; or 50 cents for five weeks—strictly in advance.

Reading notices in local columns 10 cents a line for first insertion, and 5 cents for each additional insertion. Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, state and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

Fishing is "Babbarth breaking on the q. t." It isn't the Lord they want to serve.

Rogers and Morgan, brokers in legislatures, have opened up business in New York.

Jerome is so sore because he could not hang Ben Patterson that he blames the newspapers.

Kansas wants men in its wheat fields, but these same men will be money ahead to remain in Florida.

Besides having a strike on its hands, the city of Pensacola has a warm mayoralty fight to contend with, and the mercury way up.

The story of the diamond necklace lost by Mrs. Vanderbilt by having her baggage plundered on the East Coast Railway was a big fiction.

The Atlanta Journal very liberally roasts the railroad commissioners of that State, and says that if a new board was appointed in the same manner, if it was no better, could be no worse.

The ice schooners going from Miami to the Bahamas have a cool cargo to unload. If ice schooners should be sent to some of the dry counties to be unloaded these hot days, what a lot of "longshoremen" would be found.

"Every man has his price." That Cincinnati man who agreed to keep sober for three years for the income for life from \$50,000 valued himself highly. But then he didn't overestimate the difficulties before him.—Jacksonville Times-Union.

The Jacksonville Daily Sun is gradually getting down to business and becoming a State paper. More State and less "Sassity" news is what the people want. It reaches Gainesville each evening by mail, while its evening contemporary fails to get here.

A lady stepped into a Gainesville store a few days ago and inquired: "Have you got any white children's hats?" On receiving an affirmative answer, both customer and clerk smiled and the lady said: "Have you any children's white hats?" Then a sale saved them, a la Enoch Arden.

There are many important bills that should come before the Legislature before the close of the session, and some members should be careful in presenting bills of trifling importance as a hindrance to needed legislation. A majority of our representatives are at Tallahassee for the best interests of the State, and they should not be handicapped.

What a grand organization it would be to see the Veterans of the Civil War united in one Grand Army of the Republic—the Blue and the Gray united under bond of brotherhood and standing shoulder to shoulder. At the meeting held in Washington, Thursday and Friday, such an association was discussed and it is quite certain that in 1906 there will be a grand reunion and review in Washington of the Blue and Gray.

## GOTTON SHIPMENTS.

More cotton will be shipped out from the port of Pensacola during the summer, says The Daily News, than has been handled there during any winter, if the prediction of those having something to do with the exporting department of the L. & N. counts for a great deal. Two warehouses on the railroad docks are now filled from end to end with thousands of bales, and this is being added to daily by the trains arriving from the Florida, Georgia and Alabama cotton growing sections, causing to be piled up there a fortune in the fleecy staple.

The majority of the bales which are held awaiting the arrival of steamers are of the square variety, which averages in weight from 400 to 500 pounds. When a steamer sails every week, or twice a week, with from 5,000 to 8,000 bales, it will be seen that there will be a large increase in the exporting values from that port in the next few weeks.

The charter list of the Gulf Transit Company, which was issued Thursday, shows there are at least nine steamships to take cotton from Pensacola during the next three weeks. One of these is the British steamer E. O. Saltmarsh, the vessel built for the Tampico coal trade, but which had to be pressed into the service of the Serra Line to keep up with the great increase of the traffic to the English port. The Saltmarsh will load about May 15, or as soon as she returns from Tampico, where she went with a load of coal several days ago.

## BILLS ARE RUSHING.

The Legislature is getting enough work ahead to keep the law-makers going until the Fourth of July. Many of these bills would not be considered for a moment by the most primeval town board in the land, while others are introduced to make new laws to replace those on the statute books now that are just as good.

The fertilizer bill, or substitute, now before the Legislature would, as its caption indicates, make a large amount of litigation. The introduction reads:

"A bill to be entitled an act providing that manufacturers or vendors of fertilizer shall in certain cases be liable to purchasers for damages when upon analysis by the State Chemist it appears that said fertilizer is adulterated or deficient in the constituent elements the seller represents it to contain, and providing that any vendor who is not the manufacturer may recover the amount of damage recovered against him by the purchaser, from the manufacturer or person he purchased said fertilizer from and prescribing a rule of evidence in such cases."

Why not have the fertilizer inspected by the State Chemist before it is sold, and avoid such legal proceedings?

There seems to be a general good feeling among the churches of the United States at the present time. The Congregational, Methodist Protestant and United Brethren churches throughout the country have been laboring for a long time for a union of the three, and it seems almost a certainty at the present time. It is quite certain that the present meeting of the Southern Baptists will be the last, and a union of the North and South will be consummated at St. Louis. Nothing can result in more good to the cause of religion, as it would have a strong tendency to cement the whole people in a closer bond of union.

The Titusville, Star, aged 25, is as bright looking as if but sweet 16. It is a new way local paper and deserves good treatment at the hands of the Titusville people.

## Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We offer One Hundred Dollars Reward for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHERRY & Co., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

Emperor William of Germany says that the Russian army has been demoralized by vice and the undue use of strong drink, and he thinks he could make a better showing in an effort to avert the "yellow peril." But it is only a game of bluff, as he knows well enough that his uncle Edward would not permit him to interfere. The Japs are a clever lot and can accommodate all comers at present.

## Editor Attacks Preacher.

Fitzgerald, Ga., May 13.—Rev. E. W. Daugherty, pastor of one of the Christian churches here, was attacked in the street by City Attorney E. W. Ryman, who is also editor of the Fitzgerald Citizen. Growing out of a division in the church and some articles published in the Citizen, there has been ill-feeling between the two men for some time, and the unpleasantness culminated in public today. It is alleged that the minister was struck several times and took refuge in a livery stable, where the proprietor prevailed on the lawyer to cease his attack.

## Home for Consumptives.

St. Louis, May 13.—The building of the "Fraternal City," a great sanatorium for consumptives in New Mexico, covering 80,000 acres of land, was celebrated at a banquet in the Planters' hotel, this city. Within five years it is expected 25,000 consumptives from all parts of the country will be living at the National Fraternal Sanatorium. The movement has been started by fraternalists, and is wholly for the benefit of the fraternal system. The sanatorium will be open to the members of all organizations of the kind.

## Lightning Hits Circus Tent.

Marietta, O., May 13.—William Tullius, of Lowell, was killed by a stroke of lightning which struck a side show tent of the Wallace circus and four others were injured. They are James Lacey, Mrs. W. H. McFarland, both with the side show; Mirie Gosette of Rainbow; an unknown man from the country. Several hundred other people were shocked, but none seriously injured.

## GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuel, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. J. S. Bedford & Co., Special Agents

## BAD BREATH

"For months I had great trouble with my stomach and used all kinds of medicines. My tongue has been actually as green as grass, my breath having a bad odor. Two weeks ago a friend recommended Cascarets and after using them I can willingly and cheerfully say that they have quickly cured me. Therefore let you know that I shall recommend them to any one suffering from such troubles." Chas. H. Halpern, 114 E. 11th St., New York, N. Y.

Pleasant, Palatable, Potent, Taste Good, Do Good. Never Sickens, Weakens or Gripes. No. 30, 10c. Box sold in bulk. The genuine boxes stamped "C. C. C." Guaranteed to cure or your money back.

Storling Remedy Co., Chicago or N.Y. 95c. ANNUAL SALE, TEN MILLION BOXES
